

Hello, my name is Roger. I own a small barbecue company here in Florida. I've worked with Chris and his wife My for about three years. They've been very instrumental in helping me build my website. We've done a lot of collaboration together. They've worked with me on both web design as well as maintenance, and they've done a really good job. I would consider them great friends and business partners. I would recommend them for your small business. Please reach out. Talk to Chris. I'm sure he can help you in many way ways. Thank you.
