

Hi, Jennifer Cochran from Reflected Wellness. I just wanted to give a shout out and a five-star review to Trio Media. I knew my website needed revamping and refreshing, and of course, I wanted to make sure it was ADA compliant. Trio Media came to me highly recommended, and they were great to work with. Their prices were very fair. Their timeliness was amazing. They got my website put together way faster than I anticipated, and they also worked with me step-by-step. They made sure my website looked the way I wanted it to look, worked the way I wanted it to work, and again, they were great. So again, I highly recommend Trio Media. Give them a five-star review, and it's already driving traffic to my business, so thanks, guys.
